Enables the Agency's mission and execute contracts in support of programmatic, institutional, and operational needs

OP Vision Statement: Acquisition Excellence in an Evolving Environment

OP Enterprise

Headquarters OP

Provides stewardship of acquisition process to support successful accomplishment of mission objectives. Provide policy, oversight, optimization of procurement resources, and support Mission Directorate Acquisition Strategy Development to enable more efficient operations for NASA.

Information Technology (IT) Procurement Office

Developed as a part of NASA's transformation to enable the Agency to leverage best practices related to IT, create standardization, and maintain pace with the constant change amongst the IT industry.

NASA Office of JPL Management and Oversight

NOJMO ensures proper coordination of all the required operational functions associated with the management of the FFRDC, the JPL contract, and is the focal point for communication with upper management at the JPL and actively represents NASA in local outreach and educational events.

NASA Shared Services Center

Supports NASA's overall mission by providing core procurement services across the Agency; award /administration of grants and cooperative agreements; research & development contracts; complex, large dollar service contracts; and commercial item acquisitions.

Research Centers

Ames Research Center

Specializes in research geared toward gaining new knowledge and creating new technologies that span the spectrum of NASA interests.

Armstrong Flight Research Center

As the lead Center for flight research, Armstrong continues to innovate in aeronautics and space technology. The newest, the fastest, the highest—all have made their debut in the vast, clear desert skies over Armstrong.

Glenn Research Center

Glenn develops and transfers critical technologies through research, technology development, and systems development for safe and reliable aeronautics, aerospace, and space applications.

Langley Research Center

Langley continues to forge new frontiers in aviation and space research for aerospace, atmospheric sciences, and technology commercialization to improve the way the world lives.

Space and Space Flight Centers

Goddard Space Flight Center

Goddard's mission is to expand knowledge about Earth and its environment, the solar system, and the universe through observations from space.

Marshall Space Flight Center

Marshall is the world's leader in the access to space and the use of space for research and development to benefit humanity.

Kennedy Space Center

Kennedy is "America's Gateway to the Universe"—leading the world in preparing and launching missions around Earth and beyond.

Johnson Space Center

Leads NASA's efforts in human space exploration, from the early Gemini, Apollo, Skylab and space shuttle programs to today's International Space Station and Orion programs.

Stennis Space Center

Stennis is responsible for NASA's rocket propulsion testing and for partnering with industry to develop and implement remote-sensing technology.

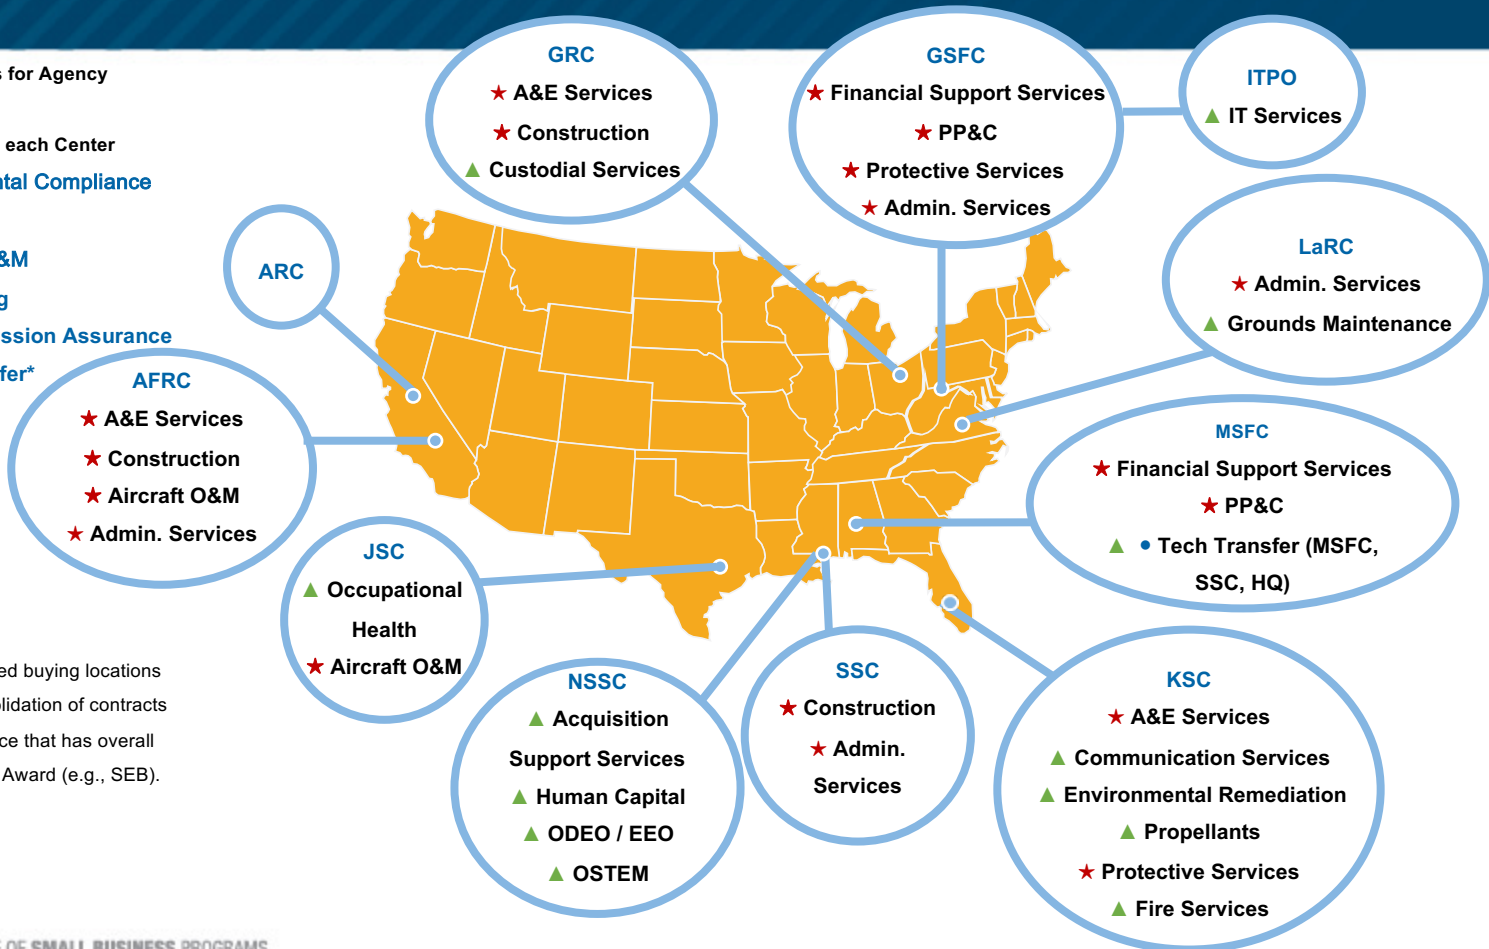

PSL SERVICE DELIVERY MODEL

▲ Centralized: Procures for Agency

★ Regionalized

● Remains Localized at each Center

- Environmental Compliance
- Utilities
- Facilities O&M
- Engineering
- Safety & Mission Assurance
- Tech Transfer*

Regionalized or centralized buying locations does not equate to consolidation of contracts. It is the Procurement Office that has overall responsibility of Contract Award (e.g., SEB).

NASA VENDOR DATABASE

<https://www.nasa.gov/osbp/nasa-vendor-database>

The NASA Vendor Database (NVDB) is open to all vendors, both large and small, who wish to do business with the National Aeronautics and Space Administration.

- Build a company profile
- Conduct vendor search
- Increase company visibility at NASA!

<https://apps.nasa.gov/nvdb/>

Time to re-register!

The NEW OSBP NASA Vendor Database is here!

Scan this QR code to register for
the new NASA Vendor Database
or click the link below.

<https://apps.nasa.gov/nvdb/>

The NEW OSBP NASA Vendor Database is here!

Welcome to the NEW NASA Vendor Database (NVDB)! This database is open to all businesses (large and small), and Colleges/Universities, who desire to work with NASA, as well as NASA employees who wish to view the landscape of prospective vendors.

The NVDB is solely utilized for information sharing, market research, and acquisition planning. The database may also be used by industry when searching for capabilities to support subcontracting opportunities or for networking purposes. Vendors are required to upload a capability statement when they register.

Vendors registered in the current NVDB, MUST re-register in the NEW database.

The former NVDB database was decommissioned effective June 15, 2023, and is no longer accepting new vendor profiles.

[CLICK HERE](#) to register your business today!

NASA Vendor Database Registration Instructions

For External Vendors

By registering your business into the NVDB, you are expressing interest in doing business with NASA and agreeing to share key information and capabilities of your business with NASA OSBP, NASA OP personnel and other registered vendors.

Steps to Register

Registering your business in the NASA Vendor Database is easy.

Step 1:

Register your business in [Sam.gov](https://sam.gov)

This step is required to register your business in the NASA Vendor Database

Step 2:

Create a NASA Guest Account to collaborate and share information.

Go to, <https://quest.nasa.gov> and setup your NASA guest Account.

Step 3:

After you have a guest account, click the Login button, then click the Register button to register your company in the NASA Vendor Database.

Do a lookup of your company's UEI to pull information from sam.gov and review the information for accuracy.

Once you are ready to sign-up, click the register button and enter your information.

For Agency Users

If you are a NASA employee conducting market research, we encourage you to utilize the NVDB. The database houses vendors with capabilities within various North American Industry Classification System (NAICS) codes.

In addition, agency users can retrieve and download searches, including vendor socioeconomic data, capabilities, as well as contact information. Agency users may utilize the NVDB to email vendors directly. A NASA Access Management (NAMS) request at <https://idmax.nasa.gov/nams> is required to enable email functionality. (Accessible for approved agency users only.)

Attention: There is no required sign-up for NASA Civil Servants. The system operates on a single sign-on with NASA badge holders.

[CLICK HERE](#) to access the NVDB today!

Disclaimer: Vendor information contained within the NASA Vendor Database does not constitute endorsement or recommendation by NASA.

NASA MENTOR-PROTÉGÉ PROGRAM

The NASA MPP encourages NASA prime contractors to assist eligible Protégés, thereby enhancing the Protégés' capabilities to perform on NASA contracts and subcontracts, fostering the establishment of long-term business relationships between these entities and NASA prime contractors, and increasing the overall number of these entities that receive NASA contract and subcontract awards.

NASA SBIR/STTR

<https://sbir.nasa.gov/>

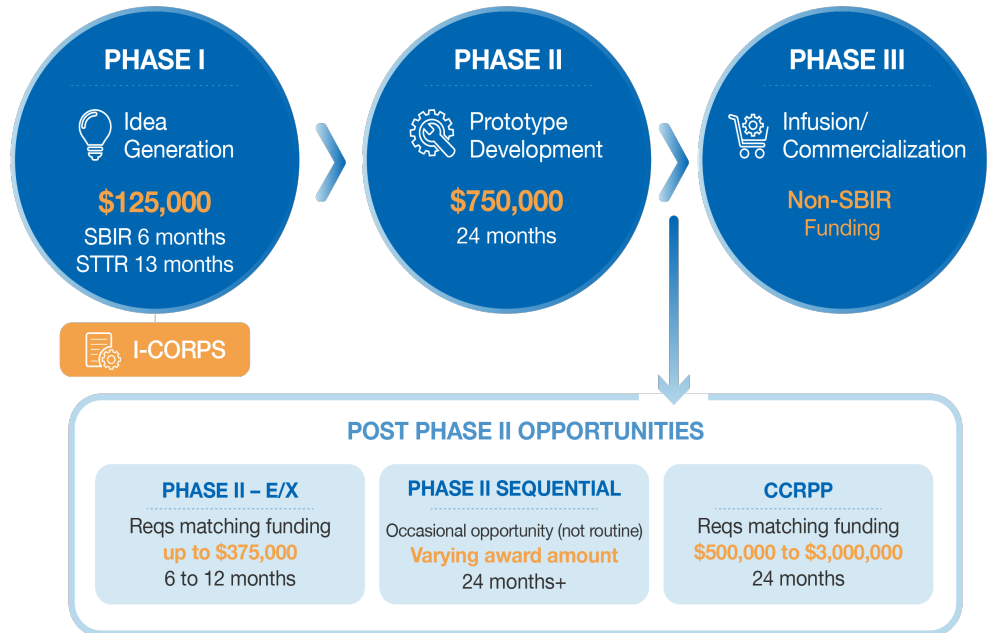

Small Business Innovation Research (SBIR)

- A set-aside program for small business concerns to engage in Federal R&D with potential for commercialization
- Currently, 3.2% of Federal agencies' extramural R&D budgets >\$100M per year

Small Business Technology Transfer (STTR)

- A sister set-aside program to facilitate cooperative R&D between small business concerns and U.S. research institutions with potential for commercialization
- Currently, 0.45% of the extramural research budget for all agencies with a budget >\$1B per year

NASA SOLICITATION AND PROPOSAL INTEGRATED REVIEW AND EVALUATION SYSTEM (NSPIRES)

- Research in science and technology is an important part of NASA's overall mission.
- NASA solicits this research through the release of various research announcements in a wide range of science and technology disciplines.
- NASA uses a peer review process to evaluate and select research proposals submitted in response to these research announcements.
- Researchers can help NASA achieve national research objectives by submitting research proposals and conducting awarded research.

Solicitations

NSPIRES now allow users to [SEARCH](#) for and view Proposals and NOIs [due in 30 days](#), [FUTURE](#), and [OPEN](#), [CLOSED/PAST](#) NASA research announcements. The full text of the Solicitation Announcements and information about selected proposals, if available, can be viewed and downloaded.

OSBP is proud to present... Osby the Robot!

Hi, I'm Osby the Robot. I'm here to support the OSBP's efforts as they aide NASA's mission. As a robot, I represent different areas of NASA's research like robotics innovation and space exploration.

Osby helps amplify the importance of small business at NASA and to the U.S. Economy.

The “O” on Osby’s chest lets you know he is a part of the OSBP team! Osby’s wheel keeps him on the go and symbolizes small business contributions as NASA explores the unknown in air and space, innovates for the benefit of humanity, and inspires the world through discovery.

OUTREACH OPPORTUNITIES

Small Business Virtual Showcase (Feb/May/Aug/Nov)

Email: ssc-smallbusiness@mail.nasa.gov

- The Virtual Showcase will allow you to provide a 10min capabilities presentation. Possible attendees include, as available, NASA Small Business Specialists, Technical Advisors, Contracting Officers, Prime Contractor representatives and local tenants of SSC.

Stennis Business Consortium through Mississippi Enterprise For Technology (MSET)

- SSC Resident Agencies and Prime Contractors
- Quarterly Meetings
- Register at Mississippi Enterprise For Technology (MSET) www.mset.org
- MSET Newsletter <https://www.mset.org/recent-newsletters/>

Stennis Business Council

- <https://mset.org/stennis-business-council/>
