

Pearl River Technologies (Pearl River) LLC was formed in 2013 to provide technology enabled solutions and services to government and industry customers. Pearl River is an SBA certified HUBZone small disadvantaged business (SDB) providing professional, technical and administrative support services to federal, state and local government agencies.

Pearl River Technologies is proud of its role in improving and contributing to the economic development of urban and rural communities throughout the United States.

Through our support and commitment to the HUBZone program, we successfully offer our customers the highest quality of service, while creating opportunities and growth for our employees.
