NOAA and the Gulf Coast

Ensuring the Nation's Maritime Safety

“To provide quality observations in the marine environment in a safe and sustainable manner to support the understanding of and predictions to changes in weather, climate, oceans and coast.”

Early Years of NDBC

NDBC FACILITIES

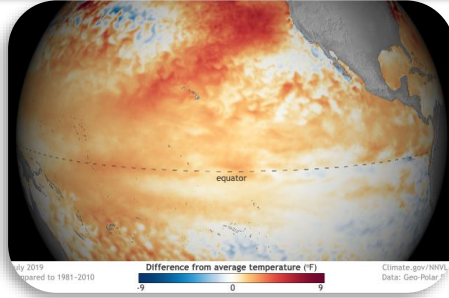

National Data Buoy Center Facilities at SSC, MS

World's Largest Maritime Observing Network

NDBC Observations Support All NOAA Mission Goals

Healthy Oceans

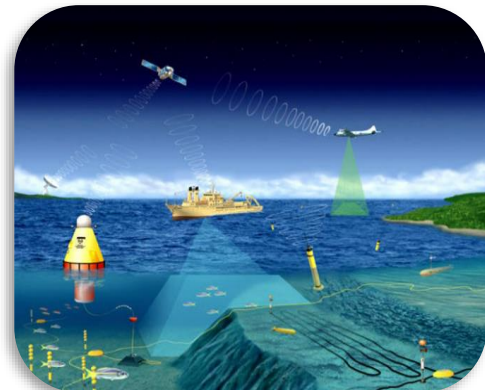

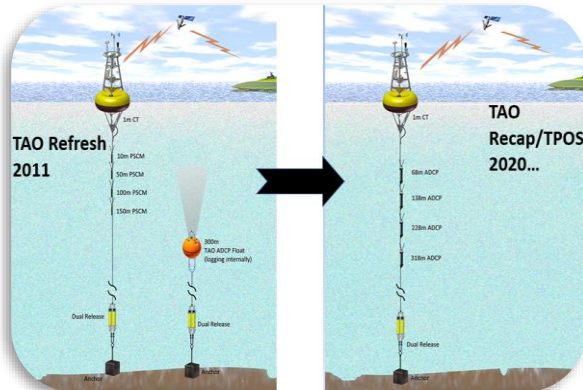

**Climate Adaptation
And Mitigation**

**Weather Ready
Nation**

**Resilient Coastal
Communities
and Economies**

Future NDBC Observations
